Subject: AZP Response to ISR Work Plan Comments, Mooresboro, NC

Dear Mr. Basilone and Mr. Coop,

The US EPA and the Hazardous Waste Section of NCDEQ have reviewed AZP's response to comments on the ISR Workplan. We are satisfied with the responses and have no additional comments. As stated in a letter dated January 23, 2020, in which you were given conditional approval of the ISR Work Plan, the ISR Report is due no later than March 23, 2020.

We would also like to confirm the site visit to the AZP Mooresboro, NC facility for March 10 and March 11, 2020. Our goal is to arrive at the facility at about 1:00 PM on Tuesday, March 10. As requested in a February 12, 2020, email from Mr. Coop, each person will provide their own personal protective equipment (steel-toed boots/shoes, hard hat, safety glasses, long sleeved shirt, and a reflective vest or jacket) in order to comply with the plant's safety protocols.

If you have any questions concerning our review or the upcoming site visit please do not hesitate to contact me.

Sincerely,

John E. Johnston

John E. Johnston
